EDUCATION HISTORY

Holon Institute of Technology

Computer Science B.Sc. student
2021 - 2024

HTH High School, Holon

Major in Technology Science (GPA: 105)
2012 - 2018

EXPERTISE

- C
- C++
- C#
- Python
- HTML
- CSS, Bootstrap
- JavaScript, Node.JS, React, Express
- Kotlin
- Linux
- Git
- Jenkins
- Network protocols (TCP, UDP, DNS, SIP, SDP etc.)
- QA automation scripts and results analysis

SUMMARY

Software Developer with over 2 years of hands-on experience in building reliable automated systems. Skilled in C++ and Python, with experience in performance testing, API development with Postman, and database management MongoDB. Known for strong attention to detail, a problem-solving approach, and the ability to work well with QA and development team to improve project outcomes. Comfortable working in CI/CD environments and tracking progress using Git

WORK EXPERIENCE

Automation Engineer

Softil Ltd.

2022 - Present

- Created and optimized automation tests for web and UI applications using Python and MongoDB to enhance software stability and reliability.
- Developed and maintained an automation infrastructure with Jenkins and Git, integrating continuous testing into our build and deployment pipeline to speed up development cycles.
- Conducted performance testing with Python, ensuring applications meet speed and stability benchmarks, which directly improved user experience.
- Collaborated with QA and development team to identify and resolve bugs quickly using Jira, boosting overall test coverage and code quality.

Iron Dome Interceptor

IDF

2018 - 2021

- Completed basic training 03
- Served 8 months as an Iron Dome soldier responsible for deploying and securing launchers
- Served as an interceptor in the south region
- Instructed at the interceptors course
